COLUMBUS, O., Jan. 23.—The spacious lobby of the Hotel Chittenden was crowded yesterday afternoon and evening by members of the general assembly, state officials and politicians, and the all-absorbing topic was the senier Judge Nathan Goff of West Virginia Prob-Ohio senatorship. A stranger weuld have thought that a senatorial cauens was about to be held instead of a legislative reunion. About 90 members of both houses of the legislature came to attend the reunion, and most of them were attracted whelly by the talk about the senatorship. It was an utter impossibility to get a poll of the members upon their preference in event of a special session to elect a successor to Senator Sherman. Not over half a dozen would even say they had a preference.

The drift of sentiment, however, was against the ealling of a special session, and in favor of the appointment of Hon. Mark Hanna to succeed Senator Sherman. This prove to be quite a surprise to the friends of Governor Bushnell, who have maintained that Mr. Hanna would not be appointed. Inasmuch as the egislature is friendly to Gevernor Bushnell, it was presumed that it would not look favorably upon Mr. Hanna. But there were points upon which they had not reckened. Many of the members want to be made postmasters under the McKinley administration, and as a matter of policy, if nothing more, they are friendly to Mr. Hanna.

The chairman of the national com-The chairman of the national committee arrived from Cleveland about 2 o'clock in the afternoon, accompanied by Major Dick. Mr. Hanna had engaged the parlors on the first floor at the Chittenden, and as soon as his arrival became known a string of callers passed in and out of his rooms. Mr. Hanna maintained that he had not come here in the interests of his candidacy for United States senator, but that dacy for United States senator, but that he was merely the invited guest of the members of the general assembly. He was greatly annoyed by the construction placed upon his visit.

Ex-Governor Foster, who was expected to be here, failed to put in an appearance, and it was rumored that he had given up the idea of becoming a latorshi

It was 10 o'clock before the members of the general assembly and their guests were seated at the banquet tables in the dining room of the Chittenden last night. The tables were arranged in the form of the figures "72," and contained covers for 200, about half of whom were state officials and guests of the mem-

Mr. Hanna was among the first to enter the room. His entrance was unheralded and it was a mement before the erowd caught on and started to appland. A few moments later Governor Bushnell entered, and he was given a

royal welcome. Governor Bushnell, the toastmaster for the evening, was seated in the center of the west table. At his right was Lieutenant Governor A. W. Jones and at his left Adjutant General Axline. Mr. Hanna sat next to Mr. Jones with Hon. Levi C. Goodale at his right. Speaker D. L. Sleeper came next followed by Speaker pro tem. C. H. Bosler, Mr. Blackburn and Senators Harbaugh, Sullivan and Shryock. At the left of General Axline were Judge Jehn A Shaneh, Clerk Caine and other state officers.

After all the guests had been seated they were greatly pleased at the electric display which followed. The room was darkened and then "Welcome 72" shone forth from the ceiling. Then a beautiful American flag in the red, white and blue came out of the darkness, eliciting

a round of applause. It was just midnight when Speaker Sleeper introduced Governor Bushnell. A leud burst of applause fellowed, lasting several minutes. The governor then congratulated those present upon the fact that there were so many members of the legislature present and that no deaths had occurred since the body was elected. The governor told several good stories apropos to the occasion and called ont a hearty laugh by stating that he was thankful he did not have a legislature on his hands.

Lieutenant Governor A. W. Jones responded to the toast, "The Seventysecond General Assembly;" the senti-ment being, "The Evil That Men Do Lives After Them.'

Adjutant General Axline responded to the toast, "The Ohio Soldiery Courageous in War; Law-abiding in Peace, Ever Loval."

Governor Bushnell's introduction of Hon. M. A. Hanna was a very happy one, the toast being "Ohio, the Mother of Presidents." When Mr. Hanna arose he was given an ovation. He began by stating that he accepted the invitation to attend the banquet on the condition that he was not to be called upon to make a response. He had been eaught unawares, but could not refrain from, adding his testimony to the sterling worth of the present legislature. Ohio was a great state. She had great natural resources and her sons took advan-tage of them. The country called presidents from different sections but after a few trials always came back to Ohio for a leader when any great crisis was seized with a fainting if confronted. The Ohio man always made from one car to another.

The toast "Nineteenth Century Pelitics," was to be responded to by Hon. C. L. Kurtz, who was not present, and Hon. Levi C. Goodalle of Cincinnati was called on to respond to "Certainties of Life, Death and Taxes."

M'KINLEY'S ATTORNEY GENERAL. ably Will Be Selected.

CANTON, O., Jan. 23.-Judge Nathan Goff of West Virginia, on most of the cabinet slates as attorney general, who came here yesterday to confer with Mafor McKinley, remained in the city until evening, when he left for home. It is generally believed that he has been practically determined upon for the atterney general of the next administration, although no direct authoritative statement to that effect has been made.
Judge Goff, when seen by the Asse-

ciated Press correspondent yesterday evening, said that his conversation with Major McKinley was of a confidential nature and he did not feel at liberty to make any of it public until the matters discussed had been finally determined upon. He admitted, however, that cabinet matters had been discussed, and said that he had no doubt that the south would furnish one of the members of

the cabinet. More visitors than usual rang the front door bell of the McKinley resid-ence yesterday and the little office was ence yesterday and the little office was erowded with people who had called to have a few words with the president-elect. All the visitors were very reticent when questioned as to the nature of their visit, and the reply "simply a social call" was more frequently heard than ever before. Among the first to obtain an audience with Major McKinley were Charles H. Dalton and Stephen M. Weld of Boston and Persoe C. Cheney of New Hampshire. These gentlemen were closeted with him for nearly an hour. It is practically understood that they were here in the interest stood that they were here in the interest of Governor Long of Massachusetts.

More Business, Though Not at Better Prices.

R. G. DUN & COMPANY'S REPORT.

There Is Larger Production, but as Yet Not Much Increase in Consumption, and There Is Larger Buying of Malerials, lic and General Gemez. Because Better Prices Are Expected in

NEW YORK, Jan. 23.-R. G. Dun & Company's weekly review of trade says: There is more business, though not at better prices. It is interesting that almost all prices which change at all are lower than a week ago, and yet business is unquestionably larger. There is larger production, but as yet not as much increase in consumption, and there is larger buying of materials, but at present only because better prices are expected in the future. A few conspicuous failures during the week have had no material influence. The market for securities is slightly strenger and yet there is very little doing. The number of hands employed, all industries considered, is slightly larger than a wrek ago, without adverse change in the rate of wages. All apprehension of foreign disturbance of money markets has passed away, but there is still great eaution in making loans. It is a mistake to reckon these as symptoms of detake to reckon these as symptoms of depression. On the centrary, in spite of the lower range of prices in important industries, the conditions all indicate larger production and a consumption increasing, not as yet largely, but

Wheat, eorn and cetten experts are the key to the financial situation and during the past week wheat has de-clined three-cightlis of a cent and corn five-eighths, while eotten is unchanged The western receipts of wheat are still small, 581,000 bushels less than a year ago, and for three weeks of January 4,519,719 bushels, against 7,666,709 last year, but the Atlantic exports, flour ineluded, were 1,534,715 bushels for the week, against 2,366,457 last year and in three weeks of January have been 5,-019,032 bushels, against 6,849,648 last

The price has declined for corn also, although everybody knows that the heavy experts mean relatively more than

The Greater Republic of Central America Protests Against the Present Nicaraguan Hill-Anglo-American Treaty Discussed-Cuban Affairs Also Mentioned. Proceedings of the House.

Washington, Jan. 23.—The session of the senate yesterday developed three distinct sensations. Most important of these was the presentation by Mr. Sherman of a letter from Minister Rodriguez, the representative of the Greater Republic of Central America (including Nicaragua), in effect protesting against the execution of the Nicaraguan eanal project by the United States under the concession granted in 1887 to the Nicaraguan Canal company. As the bill for this purpose was about to be voted on by the senate, the appearance of the letter created consternation among its

Mr. Morgan, its chief supporter, at once declared that the letter was inspired by Great Britain, who sought to drive the United States from the isthmus by using the Central Americas as a catspaw. He asserted that Minister Redriguez had come here to execute such a plan and that it was an open threat against American centrol of the canal. The debate was very earnest and the letter made a profound impression on the senators. Senator Vilas declared that it struck a deathblow to the canal project proposed by the pending

Earlier in the day the senate unexpectedly found itself discussing the new Angle-American treaty. While the treaty itself has been released, all discussion of it is restricted to executive sessions. Netwithstanding this rule the expressions were free and full from Messrs. Sherman, Gray, Cullom, Lodge, Hoar and others. The statements of these senators were uniformly favorable to the high principle of the treaty, the only qualification being that it should receive mature and dispassionate consideration.

Mistletes for centuries has been one of the most important factors in Ynletide decorations, its use dating back as far as the days of the Druids. #### A NEW ROAD.

Proposed Columbus, Ohio River and Tidewater Railway Chartered.

Its Projector Says It Will Cross the River at This Point.

Is the long expected and oft-predicted about to be realized?

In other words is the Ohio river to be bridged at this point and a railroad built to Columbus?

As is generally known such a project was confidently predicted years ago, but the road and the bridge are yet to be

The subject has lately been revived by the talk of Colonel A. E. Boone, of Zanesville, O., who, it is said, is engaged in working up a scheme to build a trunk line from Columbus, O., south to the seaboard at Savannah, Ga. Mention has been made of this lately by the BULLETIN.

Postmaster Chenoweth is in receipt of the following letter from Col. Boone about the proposed road:

ZANESVILLE, O., January 20, 1897. P. M. Maysville, Ky .- Sir: I take pleasure in advising your people through you, that I have decided to come to the Ohio river at Aberdeen, opposite Maysville, Ky., with the "Ohio River Division" of the Columbus, Ohio river and Tidewater Railway, with the view also of building north of the Ohio river between Aberdeen and New Richmond, should the people in control of the New Riehmond road to Cincinnati, O., fail to occupy the territory. Maps and railroad literature will be mailed you under separate cover Advise me of its safe arrival. Respectfully,

ALBERT E. BOONE. P. S.—If a good grade could be secured between Maysviile, Ky., and Beattyvilie, I may decide to go that route for the sea board outlet. Would be pleased to have a line between: Maysville, Ky., and Beattyville suggested. The surveys have been made between Beattyville and Jellico, Tenn., via Booueville, Manchester and Barbours-

From the following special it will be seen that the proposed road has been incorporated. The special speaks of Mr. Boone as being well known in railroad circles:

"Columbus, O., Jan. 21.—Papers of incorporation have been taken out in the Secretary of State's office for a new railroad company, to be known as the Columbus, Ohio River and Tidewater. The papers of incorporation call for three distinct divisions. The first is to be known as the Ohio River Division, and will extend from Columbus to New Richmond, in Clermont County.

"The second division is to be known as the Seaboard Division and is to extend would parallel the Norfolk and Western. cereals which is said to retain the flavor

the Coal and Iron Division and extend ties, and is much cheaper. from Columbus to Pomeroy, in Meigs County. This would reach down through the Hocking Valley coal field into the territory now reached by the Hocking Hall. The first day the box-sheet was Valley and several other roads.

"The company is headed by Coloncl Albert E. Boone, of Zanesville, who is well known in railroad circles. The stockholders are Zanesville people. It is Columbus to Jellico, Tenn., to enter the coal fields of the South. Tho road is incorporated for only \$1,000 capital stock.'

SOUSA'S GREAT CONCERT BAND

day Afternoon -The Event of the Season.

There is pleasant news for hundreds of music lovers in this city in the announcement that John Philip Sonsa and his great concert band of fifty musicians will give a grand concert here on next Thesday afternoon. Whatever Sousa does is

Miss Elizabeth Northrup, soprano, and Miss Martini Johnstone, violiniste, young artists of rare talents, will accompany Mr.

Sousa has the faculty of catering to all classes of ears. The Wagner enthusiast, the lover of sentimental Italian music, and the everyday American, who likes eyes give you any trouble, don't delay soul-stirring marches, will each find will test them scientifically and fit them thusiasm at his concerts would be a revelation to those who imagine that music County. is merely something to analyze, dissect and study. Perhaps they might conclude, in time, that the ultimate purpose of music is that soulful enjoyment arising out of the vocal and instrumental expression of melodious and harmonic numbers. but at present they deceive themselves into the belief that music pleasant to hear and agreeable to a sentimental na-

ture, must be trivial and worthless. John Philip Sousa disposes this ridiculous theory in the most substantial manner. His programs are composed of extracts from the works of the best writers of modern music and the old masters; so arranged as to form pleasing and effectivo contrasts. Sousa does not fail to lend a charm even to those excerpts from Wagner so frequently introduced in his prograins. He has struck emphatically the

key note of popular concerts. Doors open at 12:45 p. m., concert bogins at 1:45. The concert will be tho musical event of the season. Don't miss

of Meaning ...and about which such tender recollections cluster as that of "Mother," yet there are months when the life of the Expectant Mother is filled with paln, dread and enfering, and she looks forward to the final hour with fear and trembling.

#### "Mother's Friend"

prepares the system for the change taking piace, assists Nature to make child-birth easy and leaves her in a condition more favorable to speedy recovery. It greatly diminishes the danger to life of both mother and child.

"My wife suffered more in ten minntes with either of her other two children than she did altogether with her last, having previously used four bettles of "Mother's Friend." It is a bless-ing to anyone expecting to become a mother, asys a customer." HENDERSON DALE, Carmi, iii.

Refused the Wrong Beggar.

"I never refuse the plea of a beggar," says a leading member of congress. "You must not use my name and advertise me as a philanthropist, for I am net. It is simply a matter of necessity with me. I am obilged to give somesleep at night. I made a bad mistake ence, and I would rather give eccasionassistance to the worthy.

"Once upon a time I was in St. Louis on business. It was winter, and you knew how cold that town oan be when it tries hard. I was out on the street at 11 o'elock one bitter night when a chap struck me for a dime. He was poorly clad, looked hungry and sick, and I enght to have handed out the money at once. I was just brute enough not to do it. He followed me 100 feet, begging cus last night and gave the complimentand pleading, and I finally threatened te have him arrested. He turned away with a sob in his throat, and I went on to the hotel.

"There was a big snowstorm that night, and next merning they found Caldwell 6. him in a drift, frozen stark and stiff. I saw the body and recognized it. The paie face was pinched and drawn with hunger and suffering, and the eyes were refused to attend. as wide open as yours-great big blue eyes, sunken back in their sockets and staring at me in an awful way. Yes, sir, they seemed to be fastened on me alone and to follow me as I moved. When I heard car drivers, draymen, bcotblacks and newsbeys saying how gladly they would have given the poer wretch a quarter to buy lodgings and food, I sneaked away, feeling that I was a murderer. It hurt me more than I can tell you. I don't wait now to be asked for alms. I give to some who are, no doubt, undeserving, but I take my chances on that. That thing rests like a murder on my conscience, and nothing like it shall happen again."-St. Paul

#### Street Cleaning In Paris.

It was with especial interest that I made my first examination of the streets ing in excellent condition in 1889 (exposition year)

After a close and careful examination I should say that they are quite as well swept as our streets, and that there is nowhere to be found the defective pavement, of which we have so much. In the matter of litter, however, I think that New York is much better cared for, except in the more frequented show streets, and to a certain extent even there, there is more paper scattered, and in many parts of the town much less attention seems to be paid to its collection and removal. On the whole, I think we lose nothing in the comparison. New York is as clean and at least as tidy as Paris. The methods of work in the French eapital are in many respects different from what was found in other cities and very

different from the methods here. In 1859 the cleaning of the streets was transferred from the prefecture de police to the prefecture de la Seine, and it was then placed in the hands of the engineering department. The cost at that time could not be learned, but the cest in 1872 was 3,808,000 francs; in 1877 it was 4,618,000; in 1889 it was 6,530,000. It is now about 8,000,000 francs. Formerly it was the duty of all property owners to elean one-haif of the street if this did not exceed six meters (20 feet). This work is now done by the city and is paid for by a special tax on the property, which, for this purpose, is divided into three classes—that occupied (1) by buildings, (2) by walls or open grounds, (4) by vacant lots. In no case is the charge more than the actual cost to the city. In some cases it is materially less. Property holders must still remove snow and ice from the sidewalks, according to specific regulations. - Harper's Weekly.

#### Versatile William.

The Emperor William is probably the most versatile of all the rulers of Europe. There is nothing that he has turned his hand to that he has not accomplished. His particular fad, so far as trades are concerned, is printing, and it is related of him that not long ago, after he had composed a piece of music, he went into a printing efflec, "set up" and corrected the music and made it ready to be printed. There is no other monarch in all Europe who can beast of a similar feat. The Emperor William is like the candidate for circus honors years ago. The manager asked him what he could do. The eandidate said, "I can dance, sing, talk or do anything you blamed please!" That is the exact situation with Emperor William.

A Result of Matrimony.

"Do you mean to say, Ohumley, that you spend less money since you were married than you did before?"

much less to spend."

ISAAC PITMAN DEAD.

He Was the Inventor of the System of Shorthand.

London, Jan. 23.—Sir Isaac Pitman, the inventor of the system of shorthand which bears his name, is dead. He has been suffering severely from a complication of troubles for some time.

Slr Isaac Pitman was born at Trowbridge Wells Jan. 4, 1813. After six years' service as a clothier's clerk he was sent to the normal college of the British and Foreign School Soolcty, London. At the ciose of 1831 he was appointed a master of the British school at Barton-on-Humber. Ho established the British school at Wotton-Under-Edge ln 1836. His first treatise was on shorthand, entited "Stenographio Round Hand," appeared in 1887, and he thus became the originator of speiling re-

His system of shorthand was renamed in 1840 and entitled "phonography or writing by sound," and his "Phonographc Reporter's Companion" appeared in 846. Sir Isaao also edited and printed the Phonotlo Journal. Besides printing hls own instruction books for teaching phonetic shorthand, he had Issued a library of about 80 volumes, printed entirely ln shorthand, ranging from the Bible thing to every beggar, or I could not to Rassclas. In the antumn of 1887 an international shorthand congress and jubilee of phonographers was held in Loudon, aily to the unworthy than to ever deny and Sir Isaac's family was presented with assistance to the worthy. raphers of the United States and one from those of Great Britain and the coionies were presented. Mr. Pitman received the honor of kulghthood in 1834.

#### KANSAS REPUBLICANS.

They Will Vote For J. R. Burton For United States Senator.

TOPEKA, Jan. 23.-Republican members of the state legislature met in cauary nemination for United States senator to J. R. Burton of Abilene. He was selected on the second ballot, receiving 40 of the 49 vetes cast, ex-Senator John J. Ingalls securing 8 and General J. C.

The cancus was organized by the Burton faction, and as his nomination was certain, several of the Ingalls men

The caucus also endorsed Henry C. Payne of Milwaukee for a cabinet position in the incoming administration.

Senatorial Election Postponed.

SALEM, Or., Jan. 23.-The Benson house met yesterday after transacting preliminary business adjourned until Monday. The senate also adjourned until Monday afternoon, which will undoubtedly delay the voting for United States senator until Feb. 9.

#### No Result in Washington.

OLYMPIA, Wash., Jan. 23. - The ninth joint ballot for United States senator resulted as follows: Denny, 26; Turner, 23; Squire, 5; Cline, 17; Daniels, 18; Winsor, 11; Baker, 4; Rader, 3; scattering, 3.

#### Undecided in Idaho.

Boise, Ida., Jan. 23.—Senatorial ballot yesterday: Claggett, 27; Dubois, 26; of Paris, for I remembered them as be- Nelson, 15; Lewis, 1; G. C. Parkinson. 1.

FELL FROM HIS HORSE DEAD. A Young Kentucky Farmer Killed by an SATURDAY, JANUARY 23d, 1897,

Unknown Person. Russellville, Ky., Jan. 28.-Jodie Conn, aged 32 years, son of Charles Conn, one of the wealthiest farmers in this county, was killed last night near Black Jack, Tenn., just across the state line, by unknown persons. Conn and about 30 others went to the home of a negro and warned him to leave the country.

After the crowd had finished talking to the negro and were about to turn away, some one fired into them from an upstairs window, and Conn fell from his horse, dead. His body was taken to a neighboring house and left, and the crowd fled. Reports say that the negro who had been warned had been stealing from the neighboring farmers.

#### Horrible State of Affairs.

LONDON, Jan. 28 .- A Cape Town dispatch to The Daily Mail says that reports have been received that famine exists in Rhodesia. Thousands of terribly emaciated native women besiege the native office at Buluwayo, clamoring piteously for food. The natives are flocking to Buluwayo and exhuming the carcasses of cattle who died from rinderpest and which were buried six months ago. They devour these and as a consequence a terrible mortality prevails among them.

Double Tragedy. SHREVEPORT, La., Jan. 28.—A dual SECOND AND SUTTON STREETS. tragedy occurred yesterday morning, and one man is dead and the other so badly wounded that he can not recover. Rainey E. Carter and S. M. Murphy had an altercation at 3:30 o'clock yesterday morning, and Murphy drew a dirk and stabbed Carter three times, mortally wounding him. Carter fired at Murphy, killing him instantly. Both men are well known in this city.

#### McKinley's Sister Injured.

CANTON, O., Jan. 28.-Miss Helen Mo-Kinley, the president-elect's sister, slipped and fell on the ice on the sidewalk near the McKinley home, on West Tuscarawas street, about noon yesterday. She was on her way to the postoffice. In falling one of the benes in her right wrist was broken. The injury was dressed and will probably take some weeks to heal. No other injury from the fall was reported.

The Scientific Mind.

At the Vagabonds' dinner Sir John Robinson said he remembered in 1870, when the air was full of war and the news intelligence thrilling, he met a mau of seience who asked, "My dear feliow, when are you going to give ds something of interest in the paperssomething about sun spots?" This was net a scientifie joke, Sir John assured his audience, but an actual symptom of "That's what it amounts to. I have that man's mental condition -- Westminster Gazette.
